

Dr. Vincent (Taehyun) Park is the Director of Park Development and Strategy Planning Group, Resort Division, Samsung C&T. After joining the theme park division in 2009, Park has led and controlled new attraction projects and upgraded attraction maintenance and EHS group through team-rebuilding, and the development of Samsung C&T's ESH control and monitoring software system.

Currently, Park's mission is to develop IT solutions for existing theme park facilities with VR, MR and projection technology.

As a result, Panda world 360 Real View ('15), Safari 360 Real view ('16), Robot VR and Gyro VR ('17) have been have been developed. Two additional indoor attractions renewed with projection technology are being developed this year.

Before joining the resort division, Park worked for another division of Samsung C&T, the risk management consulting group, where he managed structural safety for offshore facilities and inland industrial complex.

Park has a doctorate degree in Engineering, in which he has consulted dozens of projects for natural hazard and risk management.

Park graduated from Kyunghee University in 1994, with a bachelor's degree in Civil Engineering and a Master's degree in 1996.

Park earned his Doctorate degree from The University of Leipzig in 2006.
